To whom it may concern,

Letter of Recommendation – Melbourne Commercial Interiors

Having been the Project Manager representing the developer at 80 Collins Street, I had the opportunity to work with Melbourne Commercial Interiors (MCI) whilst they undertook fit out works across several tenancies.

As part of my role, I was required to be an intermediary between the developer / landlord, the base builder (Multiplex) and the tenancy fit out contractors. Consequently, this allowed me to closely witness the manner in which MCI approach their projects and the quality with which they deliver.

80 Collins Street presented unique challenges to fit out contractors by way of needing to undertake works within a prominent CBD development whilst construction was still in progress. This resulted in fit out works logistics requiring to be closely coordinated with base build construction works.

Where a number of contractors found issue with these unique circumstances, the team at MCI lead by Steve Harrop approached the project with a 'can do' attitude and at every avenue sought to achieve the best outcome for their client. This approach and attitude has resulted in very successful outcomes.

I would have no hesitation in recommending the MCI team to undertake any works you present them with, and I certainly look forward to working with MCI myself sometime in the near future.

Should you have any queries, or wish to discuss my recommendation in more detail, please don't hesitate to contact me at any time.

Kind regards,

Ryan Spittel
Project Manager
